

Annette McClelland, CAT(C), C.Ped

Annette McClelland founded ABL Orthotics & Medical Bracing Inc. Annette recognized the need for personalized orthopedic knee bracing and custom foot orthotics, as well as professional and convenient assessment for a functional/appropriate medical product. Annette became a certified athletic therapist in 1989, treating national-level athletes and weekend warriors alike. In 1994 Annette certified as an international pedorthist.

As an athlete with a history in several provincial level sports, and with many recreational interests, Annette understands first-hand the importance of physical health and structural balance from the ground up. As a mid-life sports enthusiast, she is sensitive to the importance of continuing one's activities while minimizing wear and tear or discomfort. Annette's interests lie in educating the patient about their injury, treatment options as well as fitting them with the most functional products.
